I am Grateful that I got to know about IGMPi at exact time point at my career where I was stuck what to do next in career so I opted course in QA/QC and the guidance, study material and exposure & knowledge I got in 1 year programme is exceptional faculty was very nice and all faculty have rich experience of teaching. Relevant topics were covered, every doubt was cleared there and then, I had a wonderful experience with IGMPi. Alisha ma'am my faculty is the most sincere and knowledgeable person on the campus. She guided me quite well from the start thank you mam. My only suggestion would be to keep delivering quality experience to students. As of now I'm waiting for my placement at IGMPi. I hope they'll fulfill this too. Thank you so much.

Dear Sir/ Mam

My name is A. Ranjithkumar (Enrolment Number: CCS 2559), and I have recently joined the *Professional Certification in Chemical Safety* programme. I attended the class you conducted on **27th July 2025**, which I found very informative and insightful.

However, I have a few doubts specifically regarding the preparation of **SDS/MSDS**. The session provided a helpful overview, but I would like to gain a more detailed understanding of the topic. As I am currently working in the chemical industry, having in-depth knowledge of SDS/MSDS preparation would be highly beneficial for my professional role.

If possible, could you kindly share any **detailed notes or a PPT** presentation related to SDS/MSDS preparation? Any additional study materials or references would also be greatly appreciated.

Thank you in advance for your support.

Warm Regards

Subject: Feedback on Dr Alisha Syeda

To: [REDACTED]

Hi

I am a student for Ayurvedic cosmetology who has recently started my training with IGMPi.

I am writing to share some feedback on Dr Alisha Syeda who has been taking our classes on Phytochemistry.

1. The topic is very new for me and also since I am not from science background, it could have been very difficult. However, Dr Alisha is very thorough with the topic and keeps it simple and easy to understand.
2. She keeps the class very engaging by giving real life examples which makes it much easier to understand this complex topic.
3. She is extremely polite and also gives assignments so the students can understand how to use these plants in real life for their future entrepreneurship.

Best Regards

Alka Muneesamy
